

Homeland Security and Emergency Service

Associate in Applied Science 60 Credit Hours

Purpose

Homeland security is possibly one of the most important and talked about issues of our culture today. Jobs in homeland security are in high demand in various areas such as: management, investigation, private/public security, and law enforcement. As one of the largest government agencies, they are looking for strong individuals with a variety of skills to carry out specific tasks. Previous experience in security, public service, military, technology, or administration is helpful but not required.

The full Homeland Security and Emergency Service Program is available on the Logan Campus. The Boone/Lincoln, Williamson, and Wyoming/McDowell campuses offer the program support courses only.
